

KAINE BINCH

Software Engineer

About Me

Software Engineer with commercial experience developing and maintaining full-stack web applications using modern technologies such as TypeScript, Vue.js, and React, alongside supporting and improving the existing PHP codebase. I contribute across the full development lifecycle, working on both new features and legacy systems to deliver scalable and reliable solutions. With a background in the social care sector, I bring strong problem solving, communication, and team leadership skills, alongside a user-focused mindset. Passionate about continuous learning, I am committed to growing as a developer while applying my adaptability and collaborative approach to deliver meaningful, high-quality software solutions.

EXPERIENCE

Junior Full-Stack Software Engineer

January 2025 - Current

- Maintained an adaptable and proactive approach, collaborating with teams to drive efficiency and deliver high-quality software solutions.
- Collaborated with cross-functional teams to define project requirements, ensuring alignment between development, design, and business goals.
- Developed and maintained web applications using Vue.js, PHP, and TypeScript, ensuring scalability and performance.
- Worked with PostgreSQL to design, optimize, and manage databases, implementing best practices for data integrity and efficiency.
- Containerized and deployed applications using Docker, leveraging AWS services for cloud-based infrastructure and hosting.
- Assisted in troubleshooting, debugging, and optimizing legacy systems while contributing to the development of new features.
- Supported team members by sharing knowledge, participating in code reviews, and assisting with onboarding when required.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, PHP, HTML, CSS, Markdown
Frameworks/ Libraries	Vue.js, Pinia, React.js, Three.js, Node.js, Tailwind CSS, Framer Motion, GSAP, p5.js
Tools/ Tech	Git & Github, Visual Studio, Docker, Figma, REST API's, Yarn/npm/composer, JSON, Prettier, Postman

Deployment/ Hosting	AWS (EC2, Lambda, Elastic Beanstalk), Github Pages, Hostinger, Contabo VPS Hosting
UI/UX Design	Figma, Pixso (excellent proficiency in wireframing, prototyping), Material UI, DasiyUI
Testing/ Debugging	SonarQube, Vitest, Jest, Snyk Security,
Collaboration Tools	Trello, MS Teams, Zoom, Confluence, Jira

Contracts Manager

Aug 2023 - January 2025

- Managed procurement processes and supplier relationships to ensure value for money and compliance with public sector regulations.
- Negotiated, reviewed, and maintained contracts across various council services, ensuring legal and operational alignment.
- Monitored supplier performance, mitigated risks, and implemented strategies to improve service delivery and cost efficiency.
- Provided expert advice to internal teams on contract management, procurement policies, and regulatory compliance.
- Led dispute resolution, contract renegotiations, and service improvements to enhance operational effectiveness and community impact.

Care Team Leader (Project Lead)

Aug 2022 - Aug 2023

- I exclusively developed and spearheaded a new Spot Contracting framework for homecare agencies, which encompassed auditing, inspection, and negotiation processes. This initiative significantly reduced wait times within Nottingham City.
- Build and maintain positive relationships with individuals at all levels within the organization, as well as with external stakeholders.
- Negotiated hourly rates with care agencies to strike a balance between adhering to council standards and aligning with industry norms.
